Assigning practice quizzes

This is a great example of what this assessment can do for you other than just test your kids. Each practice is set up beginning with an **audio explanation**, followed by **simplified practice questions**, and finally **actual test practice questions**.

1. Log in as yourself
2. Select Instructional Resources, then Assign by Skill/Student.
3. Filter through the subject, skill options. Click Search.
4. A list of your students' names will come up. Check the boxes to the right of each student to assign test to individual students or the box under Assign to assign to your entire class.
5. Click Assign These Students at the bottom of the list.

[Assign these Students](#)

6. Have your kids log onto the benchmark quiz just like they did when they were tested. (Username and passwords will still be the same.) This time, instead of clicking Take a Test, they will select Study.

7. From there, students will choose a category and select the practice you have assigned.

Adding practice/review with Acuity

1. Log into Acuity. (Acuity can be accessed at home - <http://benchmark.center.k12.mo.us>)
2. Select Instructional Resources.
3. You will have a choice to assign practice by skill/standard or by student. It might be a good idea to assign initial practice by skill then reassign at a later date to those specific students that will need more practice.

*** Notice under Instructional Resources, you have the option of Previewing/Printing Instruction. Great way for you to preview practice options!

4. Filter through the assignment window indicating your school, class, and skill, then click search.

5. The next window will give you the option of assigning the selected skill to your entire class or you can select individual students.

6. After making your selection, click Assign these Students.

7. Continue adding exercises in the same way until all have been added.

*** Should you select to assign practice by student, you'll follow these exact same steps. The difference is you will assign practice to one student.

Viewing results of assigned practice

1. Log into Acuity.
2. Select Instruction Resources, Status by Student.
3. Filter through the Instructional Resources Reports window indicating your school, class, subject, grade, and skill group. Click Search.

4. The Search Results will show student results for selected skill practice.

5. Clicking the student's last score percent will open a window to see specific answers for the practice. Further selecting the correct/incorrect link under answer will show which answer the student actually selected.

*** Notice there is a Print Page icon on any of these pages for printing options.
