

Opening YouTube Videos

You'll need to do this from home or email yourself the YouTube video link if you plan to complete this at school.

1. Go to <http://lightspeed.center.k12.mo.us/safevideos/> and click the login link.
2. Log in with your Novell username and password. (Your Novell username is what you use when you log into your computer each morning.)

3. Now you'll notice you have more options. One of these options is to submit a video.

To submit your YouTube video, click the Submit A Video link.

4. Paste the web address of your video and click the Get Video button.
5. Finally, fill in everything required to submit your video – the title, category, tags, any notes, your email and if you want to be notified once the video is submitted.

Tags are very important! When you search to view a video, the search is done by the tags you enter.

Tip!

If this is a video you will use often, think about using your last name, subject or school as a tag. You'll be sure to remember what to search for!
